#### GOOD WEEK FOR MARKETS

SHOWING NOT EXCEEDED BY ANY NORMAL WEEK IN THE YEAR.

Prices on Potatoes Are Daily Becoming Weaker-Produce Ruled Steady and High-Corn Market Good.

In the week ending Oct. 5 the volume of business was highly satisfactory, in fact, which the large gatherings were in Inconvocation of Odd Fellows, and the month of October promises excellent results in the way of trade. Steady prices while many goods are sold on close marsatisfactory. During the week there were but few changes. The butter, egg and poultry market continues active and as for some time past prices have ruled steady and periods in former years. California grapes, Virginia lubricating, 20@30c; miners', 40c; lard oranges, lemons and bananas are good reliers and except on bananas prices carry strong tone. In all lines there seems to be a healthy volume of business in progress. Bills are met with promptness and matters generally move along smoothly. Local dealers in cereals on Saturday would pay prices bid on Friday, which were a shade higher than those of a week Pgo. All cereals are in good request, the cerealine mills being unable to keep up, the supply to run to full capacity. While she receipts of the week were in excess of those of the preceding week, they are still

last week and a decrease of about 1,000 compared with the same week a year ago and an increase of 1,500 over the corresponding week two years ago. Thus far this year the receipts are over \$4,000 larger than the same period last year. For the week ending yesterday local packers bought a total of 16,849, against 11,037 the preceding week and 17,665 the same week a year ago. During the same period the shipments were 3,494, against 3,798 the perceding week and 4,803 the corresponding week a year ago. The week opened with prices strong compared with the close of last week, but later, with considerably increased supplies, buyers everywhere began pounding prices unmercifully, and before they stopped they had succeeded in reducing the average at least 40c per 100 pounds. On Thursday the market was steady and on Friday there was a slight rally on certain kinds, but at the extreme close of the week another reaction left the market in about the same condition as it was at the low time, with the tendency weaker. Quite a number of good hogs were marketed during the week and some were fancy enough to command premium prices. There was, however, a large proportion of common stock in the arrivals and a few grassy half-fat hogs that had to sell at a very low price and kept a wide range in values. The shipping demand, on account of the comparatively low prices prevailing in the Eastern markets, has not been of great importance, but packers proved to be very reasonable buyers and salesmen have succeeded in maintaining a high average in prices compared with those current in other markets. but prime heavy hogs would probably have | championship last year. sold as high as \$7.25 on Monday. Since Tuesday none have sold above \$7, and at the low time the top was \$6.85. The receipts to-day were as large as expected at this time in the week, and the quality generally was fully as satisfactory as yesterday, there being possibly a larger proportion of good heavy hogs to-day. The market opened with sales usually at about steady prices, but from the start there was rather an easy undertone to the market, and after the more important orders had been filled and other markets were quoted as closing lower there was naturally an easing off in the bidding here and the last sales were considered 5c lower than yesterday or this morning. In fact, the closing market was very weak, and the outlook is not

very favorable for steady prices in the near future. A good clearance was finally made with packers the principal support of the market. A small proportion of the sup-ply sold above \$6.85, and there were not many sold below \$6.40. Roughs ..... 5.50@6.20 Sheep-Receipts light; shipments small. The marketing of sheep and lambs this week has been of smaller volume, but apparently ample to meet the requirements of the trade. About 700 less than last week were received, and there is an increase of 2,300 compared with the same week a year ago and nearly 2,500 compared with the corresponding week two years ago. Thus far this year the receipts are nearly 43,000 larger than the same period last year. From the beginning of the week the reports from outside markets have not been favorable to this market, but, notwithstanding that, the demand here continued steady and prices were for the most part Hams-Sugar cured, 18 to 20 lbs average, 1214@ satisfactory to salesmen and owners. The market at the low time was possibly 10@15c lower than the high time, but at that prices were apparently higher than equal kinds were selling in the East. As usual, shippers were the principal buyers, but the demand from local butchers was of more than ordinary importance and the competition was strong enough to cause rather an active trade every day. During the week lambs sold as high as \$4.75, but \$4.50 was practically the top, and a few sheep sold as high as \$3.50, with \$3.25 practically the top. The receipts to-day were small and the demand was equal to the supply. Buyers

#### AKRON LINEMEN'S STRIKE.

Men Imported to Take Their Places Induced to Return Home.

AKRON, O., Oct. 5.-A force of telephone linemen imported to take the places of local strikers were surrounded by a howling mob which threatened personal violence when they attempted to go to work this morning. Police had to be called to guard them. Last night the new men were unable to secure meals or a place to sleep, owing to the strong union sentiment. It is imperative that repairs be made or the telephone companies go out of business Serious trouble is feared. All the thirty-one men brought here to take the places of strikers have been induced to quit work, the men being furnished with transportation to their homes by the strikers. The linemer, who have been rebuilding the Central Union plant at Massillon were requested to go to Akron to take the places of strikers, but all refused and have quit work, declaring a lockout at the Massillon plant.
